Welcome to the Park

Valhalla Provincial Park is a dramatically diverse area encompassing 30 kilometres along the west shore of Slocan Lake and most of the Valhalla range of the Selkirk mountains. The peaks are truly magnificent in the northwest; New Denver Glacier (2,758 metres) dominates the landscape while the block-shaped Devil's Couch (2,667 metres) and Hela Peak (2,717 metres) define the central area. Along the southwestern boundary is an outstanding group of spires including Mount Dag, the Wolf's Ears, Gimli, Asgard and Gladshiem (all over 2,660 metres). The Slocan Lake shoreline has many attractive sand and cobble beaches for boaters to enjoy.

Things to Do

- There are canoeing opportunities on Slocan Lake. A popular trip is to canoe the length of the park, staying close to the shore, over two to five days. Motor boats are permitted only on Slocan Lake.
- Numerous hiking opportunities exist at this park. See the trail descriptions on reverse for more information.
- Swimming can be enjoyed at many locations. There are no life guards on duty in provincial parks.
- Hunting is permitted from September 1 to June 30 during lawful game hunting season. No hunting permitted at Evans Lake Ecological Reserve which is located within the park boudary. Licence required.
- Pets are only permitted at the Slocan lakeshore sites and on the trails originating there. Pets must be on a leash at all times. Please be responsible for their behaviour and waste.
- There are great fishing opportunities at this park. Valid provincial fishing licence required.

Visitor Services

Nine Slocan lakeshore camping areas provide pit toilets and bear-proof food caches, and are open year-round. No services at marine sites. Other camping opportunities are available at Emerald and Cahill Lakes and on the Gimli and Gwillim access trails.

Equation Boat-accessible beaches for day-use or picnic facilities.

Campfire rings are provided at Slocan, Emerald, and Cahill lakes. Fires permitted only in designated rings. Use driftwood only. Bring a camp stove for cooking.

Enjoy Your Stay

Park regulations protect the natural state of the park and ensure a quality experience for all visitors.

- Help us keep parks beautiful pack it in, pack it out.
- Use of drones/UAVs is not permitted in Valhalla Park.
- Mountain bikes, motor vehicles (including motorcycles, ATVs, snowmobiles, etc.) are restricted to vehicle roads and parking lots. Motorboats permitted only on Slocan Lake. It is recommended that larger motorboats anchor in the more protected areas due to unpredictable wind.
- Lakes and streams are the source of drinking water. Protect the water system by washing at least 100 m from water's edge. Biodegradable soaps, food scraps and dirty dishes will pollute water.

Gimli Area Mountain Goats

Mountain goats in the Gimli area have become habituated to people as a result of their attraction to human urine on the ground. The public is asked to use the backcounty toilet facility for all toilet needs including brushing teeth and urinating, and to use the food cache to store all food/odourous items including boots and sweaty clothing. Thank you for helping us ensure the health and survival of these goats and the safety of the public.

Conservation

The park supports important populations of mountain goat and grizzly bear along with other locally common species. Alpine ptarmigans and golden eagles are favoured birds to watch when hiking.

The forest vegetation is a diverse mixture of species including hemlock, coastal salal, and magnificent old growth spruce, western red cedar and yellow cedar stands.

Pictographs on the rock bluffs overhanging Slocan Lake are reminders of First Nation inhabitants while overgrown trails and logging flumes mark the passing of the local mining boom a century ago.
